WILL DRAW DRAFT NUMBERS DURING THE WEEK OF JULY 23

PRESIDENT WILSON DOES NOT APPROVE OF CITIZENS TAKING LAW INTO THEIR OWN HANDS

(By Associated Press.)
WASHINGTON, July 13.—Drawing for lots for the selective draft not only will determine what men are to be called to the colors in the first war army, but will show in what order the others registered will be liable for service when later armies are organized.

A plan of drawing will be followed under which a definite place in the waiting lists will be given every one of the millions who registered. Those standing at the head of the list in each county or city district will be called first before the examining board, and then the obligation will pass on down the line as long as men are needed.

This does not mean that a separate name or number will be drawn for every one of the country's 9,800,000 registrants. In fact, every number drawn, under the theory of the plan, will represent more than four thou-

sand men, one for each of the registration districts.

"Every registration board has numbered the cards in its possession in red ink, beginning at No. 1, and continuing to a number corresponding with the total in the district in which the drawing numbers will be used, ranging from No. 1 to a number corresponding to the total in the largest district of the country.

The first number drawn will determine what man in each district is to be taken first. If it be No. 10, for example, it will mean that the man in each district holding local card No. 10 will be called for examination before any of the other men in that district.

The second number drawn will determine what man in each district is to be taken second, and so on as long as men are needed. Those not needed for the first war army will retain their positions in the list

and these positions will determine the order of their liability when they are needed.

Obviously there will be high numbers drawn, for which there are no corresponding registrants in small districts. The smallest district in the country is understood to have but 187 registrants and the largest about 7000.

Whenever a number beyond the total in any given district comes out it will operate as a blank for that district. Thus if the theory worked out evenly the larger districts will be constantly assessed in excess of the smaller on a pro rata basis corresponding to their size.

The drawing probably will be held during the week of July 23. Only 24 states have completed the organization of their exemption boards and the posting of red ink numbers. The

GUARDS CALLED NEXT SUNDAY

CAMP SITES AND SUPPLIES ARE READY FOR THE NEW ARMY

(By Associated Press.)
WASHINGTON, July 13.—Selection of camp sites for the national guard was completed yesterday when Secretary Baker approved Hattiesburg, Mo., and Alexandria, Louisiana, and announced the change of the Fayetteville, N. C., site to Charlotte, N. C. Routing of the guardsmen from all states to the camps for training preliminary to their departure for France was immediately worked out by the military bureau and the list of assignments submitted to Major General Bliss, acting chief of staff, for approval. None of the bureau's recommendations were revealed.

The first increment of the guard will be called into the service of the federal government next Sunday, although the draft clause of the national defense act, will not be applied to any of the guardsmen until August 3. Movement to the camp sites can begin within a few days, as supplies sufficient for the men have already been secured.

The fact that the guard is to be under training even before drawing for the selective army begins indicates that of the men drafted the first to see service will be those assigned to fill vacancies in the guard or the regulars.

EXTENSION PLANT READY TO DELIVER

AUXILIARY ELECTRIC SERVICE FOR PUMPING PLANTS HAS BEEN COMPLETED

The new auxiliary electric power plant of the Tonopah Extension Mining Company is complete so far as machinery and boilers are concerned, and all that is required to place it in actual commission is the delivery of the switchboard which was promised to be on the ground by the 7th of July. Electric installation now, however, is accompanied by many delays and difficulties, as it is almost impossible to secure deliveries owing to the enormous demands of the government for equipment. This demand takes precedence over all other orders, as it is for war purposes and has the right of way. The entire country is being combed for parts suitable for electric plants and inquiries for parts are flashed and orders placed by wire, as the mail service is too slow. As an illustration of this it may be mentioned that some of the equipment for the Tonopah

EARLY ARRIVALS FROM THE COPPER CAMP TO ATTEND THE BIG INITIATION

The antlered herds and their prizes from White Pine county are coming in ahead of the time set for their reception, but that makes it all the better, for the hosts of the occasion who will have all the more time to show how Tonopah takes care of the stranger within its gates. Ole Elliott, with his wife and party, rolled across the desert early in the evening and were followed by others until daylight this morning, when the last car load registered at the Mizpah. The programme of entertainment has received the final touches and the ceremonies of taking care of the new class of candidates will be shared with Millers, Manhattan and Goldfield, whence large delegations will be present. The latter camp will come in a body with eight or ten cars. The business men began showing their colors today and others will follow suit tomorrow, when the fronts of every store should blaze with the purple and white of the order.

Among those who came in last evening were: Mr. and Mrs. W. S. Elliott, Mrs. A. W. Wither, Miss Bobbie Wither, George Whitley, W. J. Moorman, B. L. Tucker, Ray Smith, Jack Griffiths, Harry H. Lewis and G. W. Lewis.

Extension was secured as far away as Georgia.

The auxiliary is rated at 450 kilowatts and is designed merely to supply the pumps in the event of any serious breakdown on the main line of the Nevada California Power Company, which would cripple the service and allow the water to creep up in the Victor shaft where the company is operating at a greater depth than any other mine in the district. In a few days this company will be crosscutting to the Murray vein from the new station on the 1680 level, making this the deepest lateral work prosecuted in Tonopah.

BELMONT MAKES BULLION SHIPMENT

Responding to the improvement in the silver market the leading producers are increasing their output at a rate that makes a splendid contrast with last year. The last shipment of the Tonopah Belmont for the latter half of June amounted to 80 bars of gold and silver bullion weighing 148,565 ounces, valued at \$133,208.59, on the basis of the new quotation. Of this shipment 26 bars, weighing 48,836 ounces, were sent out from Millers and 54 bars, weighing 99,729 ounces, from the Tonopah plant.

The Tonopah Mining Company shipped this week 38 bars of bullion, valued at \$67,100.

BALTIMORE BOY BEATS NEW YORK LIGHTWEIGHT

WHOLESALE PROPERTY DAMAGE PLANNED BY I. W. W. IN THE WEST

(By Associated Press.)
SAN FRANCISCO, July 13.—Deportation undertaken yesterday at Bisbee, Arizona, of more than 1000 Industrial Workers of the World, centered the eyes of the nation on an agitation which has risen in the west to considerable proportions after manifesting itself sporadically from coast to coast for years.

From the Canadian border to Mexico, civilian, state and military authorities are alert to suppress all disorder.

tion of supplies necessary to the conduct of the war, but while German influence and financial support was charged by some of them direct substantiation of this accusation could not be had. Organizers of the I. W. W., especially in Arizona, were reported to be well financed from sources unknown even to those well versed in the workings of the body.

Military censorship which suppressed accounts of immediate occurrences of Arizona, still permitted a fairly extensive view of the general situation.

Strikes are on in the copper mines of Arizona and Montana. They were threatened in the mines of Colorado, Nevada and Utah.

returned, reporting they left their charges at Hermanas.

(By Associated Press.)
COLUMBUS, N. M., July 13.—The Industrial Workers army left Hermanas today and is strung for a mile or more along the railroad track, walking in this direction. It is reported. The Columbus citizens have turned out strongly to repel any "invasion." The situation of the deported persons is described as desperate, as they have no food.

(By Associated Press.)
EL PASO, July 13.—If Industrial Workers come here they will be fed and arrested on vagrancy charges, if deemed advisable. It is reported that many still camped at Hermanas are flooding the wires with requests for aid.

NEW YORK, July 13.—The railroads of the country have been requested by the government to place by telegraph an immediate embargo on all goods for export mentioned in the president's proclamation except where bills of lading are accompanied by federal licenses authorized by the export council.

FREEDOM FOR FINNS DEMANDED

RUSSIA CONFRONTED BY A CALL FOR INDEPENDENCE OF FINLAND

(By Associated Press.)
PETROGRAD, July 13.—The Finnish diet has passed to second reading a bill virtually establishing Finnish independence. Introduction of the bill created a serious crisis here. President Tscheldse of the council of workmen's and soldiers' delegates has gone to Helsinki in an effort to settle the differences.

According to the newspaper, M. Lvoff's Socialist colleagues declare themselves in principle in sympathy with Finland's move. The premier and other ministers belonging to the cabinet party, however, refuse to allow Finland to determine her relations with Russia, declaring it must wait until the constituent assembly.

KAISER ORDERS DECREE DRAFTED

EQUAL FRANCHISE WILL BE PART OF ORDER TO MINISTRY

(By Associated Press.)
BERLIN, July 13.—Emperor William has directed a decree to the ministry ordering them to supplement the decree of April 7th by drawing up the draft of a bill dealing with alteration of the electoral law for the house of deputies on the basis of equal franchise. The bill is to be submitted early enough so the next elections in May may take place according to the new franchise.

are now practically without food.

(By Associated Press.)
BISBEE, Ariz., July 13.—More than 1100 alleged Industrial Workers of the World, deported from Bisbee, were aboard 24 cattle cars last night speeding toward New Mexico. Their announced destination is Columbus. The special train carrying them left Warren, four miles from Bisbee, at noon. The men were driven from the city by deputy sheriffs and about two thousand armed men, members of an organization known as the Citizens' Protective League. Two men were killed during the work of deportation.

A strike was called here by the metal workers' branch of the I. W. W. about two weeks ago. Since then, according to officials, scores of strange men have been in Bisbee. These men are alleged to have prevented miners from returning to work. Plans for the round-up of alleged undesirables were made at midnight by Harry C. Wheeler, sheriff of Cochise county. Within two hours the sheriff had deputized 1200 men and ordered them to report at various points at 4 o'clock Thursday morning.

When the citizens assembled those who were not already armed were given rifles and revolvers with instructions to use them only in self defense.

"Until the last I. W. W. is run out" was the watchword passed to the waiting men.

At 6:30 o'clock, special newspaper editions containing a proclamation by Sheriff Wheeler, ordering women and children to keep off the streets during the day and instructing deputies to "arrest on charges of vagrancy, treason and being disturbers of the peace of Cochise county all those strange men who have congregated here from other parts and sections for the purpose of harassing and intimidating all men who desire to pursue their daily toil," were circulated on the streets.

Simultaneously five bands of armed citizens appeared as if by magic.

Some hurried from alleys, others came streaming from store rooms and some sprang down from low roofs of business buildings. All marched in a business-like manner to the center of the town.

Every strange man on the streets was captured.

"Hold on, stranger, what's your business? What are you doing in Bisbee? And how long have you been here?" were some of the questions asked by the little groups as they surrounded each man. Every suspicious looking individual was placed under arrest.

Every suspicious looking character in front of the Copper Queen mine and in front of the postoffice were
